REPORT

Name: "TEMPLE CLEANING" (Swachh Bharat Abhiyaan) event

Date: 17/07/2018

The Temple Cleaning Program, part of India's Swachh Bharat Abhiyaan (Clean India Mission) focuses on enhancing cleanliness and hygiene standards in temples. Key objectives of the Temple Cleaning Program include organizing regular cleaning drives, implementing effective waste management practices, and raising awareness among temple authorities, devotees, and communities about the importance of maintaining cleanliness. Volunteers and local communities play a pivotal role in these efforts, actively participating in cleaning activities and supporting sustainable sanitation practices. The program underscores the cultural and spiritual significance of temples by ensuring they remain clean, safe, and hygienic environments for worship and community gatherings. By fostering a sense of responsibility and collective action, the Temple Cleaning Program contributes to broader efforts to improve public health outcomes and promote a cleaner environment nationwide. Through ongoing initiatives and community engagement, the program continues to make strides in achieving its cleanliness goals, reflecting a commitment to sanitation and hygiene as integral to India's developmental agenda.

REPORT

Name: "Anit Plastic Drive and Paper Bags Distribution" event

Date: 30/8/2018

On 30/08/2024 conducted an Anti-Plastic Drive them to address the growing concern over plastic pollution. The event aimed to educate the public on the harmful effects of plastic and promote the use of eco-friendly alternatives like paper bags. The drive involved setting up awareness stalls where volunteers distributed brochures and flyers detailing the dangers of plastic waste. These materials highlighted how plastic negatively impacts the environment, wildlife, and human health. The campaign also included the distribution of paper bags to the public in high-traffic areas such as markets and shopping centers, encouraging people to reduce their reliance on plastic bags.

A significant part of the event was the hands-on workshops where participants learned to make paper bags from recycled materials. This practical approach not only engaged the community but also empowered them to contribute to reducing plastic waste actively. The response was overwhelmingly positive, with a large number of residents pledging to adopt sustainable practices. Local businesses also showed support by expressing interest in using paper bags for their customers.

In conclusion, the Anti-Plastic Drive successfully raised awareness and fostered a community-driven movement towards environmental sustainability. The event's success underscores the importance of continued efforts in this direction, with plans for more such initiatives in the future.

REPORT

Name: "E-Waste Recycling Awareness Drive" event

Date: 05/9/2018

The drive kicked off with an informative presentation by the club members, highlighting the dangers of e-waste and its impact on the environment. This was followed by a guest lecture from Mr. John Doe, an environmental scientist, who emphasized the need for responsible e-waste management and shared tips on how individuals can contribute to this cause.

A collection booth was set up at the school's entrance, where students, teachers, and community members were encouraged to drop off their old and unused electronic devices for recycling. The collected e-waste was then handed over to a certified e-waste recycling company, ensuring that the materials would be processed in an environmentally friendly manner.

Additionally, posters and banners were displayed around the school premises to create a visual impact and reinforce the message of the drive. Informative pamphlets were distributed to participants, providing detailed instructions on how to dispose of e-waste safely.

REPORT

Name: "Anti-drugs rally"

Date: 10/10/2018

The rally commenced with an opening speech by the president of the Youth Welfare Association, who emphasized the importance of drug prevention. This was followed by a powerful speech from a former addict, who shared his personal journey of recovery, highlighting the dangers of substance abuse. Participants then marched through the streets of Springfield, carrying banners and placards with anti-drug messages. The march was accompanied by slogans and chants promoting a drug-free life. Informational pamphlets were distributed along the route to passersby, providing details on the risks of drug use and available support services for those struggling with addiction. The rally concluded with a short cultural program featuring performances by local artists. The performances included songs, skits, and poetry readings that conveyed strong anti-drug messages, leaving a lasting impact on the audience. The rally attracted over 140 participants, including students, teachers, parents, and community leaders. The event successfully raised awareness about the dangers of drug abuse and fostered a sense of community responsibility towards combating this issue. The distribution of educational materials ensured that the message reached a wider audience beyond those physically present at the rally. The Anti-Drugs Rally was a significant step towards promoting a drug-free society in Springfield. The program effectively engaged the community and created a strong anti-drug sentiment among the participants. The Springfield Youth Welfare Association plans to continue such initiatives to strengthen the fight against drug abuse.

REPORT

Name: "Tree Plantation"

Date: 27/12/2018

The seminar began with an opening address by the principal of Green RAAK arts and Science College. Who emphasized the importance of trees in maintaining ecological balance. This was followed by a keynote presentation by Dr. Sarah, a renowned environmentalist, who discussed the role of trees in reducing carbon footprints, preventing soil erosion, and enhancing biodiversity. Participants were then shown a documentary highlighting successful tree plantation projects around the world. The documentary served as an inspiration for the audience, demonstrating the positive impact that tree-planting efforts can have on local and global environments. A practical workshop was conducted after the presentations, where participants learned the correct techniques for planting and nurturing saplings. Experts provided hands-on guidance, covering topics such as soil preparation, watering schedules, and pest control. Attendees were also given the opportunity to ask questions and seek advice on their tree-planting initiatives.

REPORT

Name: "Beach Cleaning Drive"

Date: 21/01/2019

The Volunteers combed the beach, collecting various types of waste, including plastic bottles, food wrappers, fishing nets, and other debris that had washed ashore. Each team was responsible for sorting the waste into recyclables and non-recyclables to ensure proper disposal. In addition to the cleanup, educational booths were set up along the beach, where environmental experts spoke to beachgoers about the dangers of marine pollution. Pamphlets with tips on reducing plastic use and protecting marine life were distributed to the public, encouraging them to adopt more sustainable practices. The Beach Cleaning Drive saw active participation from over 150 volunteers, including students, local residents, and members of the Springfield Coastal Conservation Society. By the end of the day, approximately 3 kilograms of waste was collected and properly disposed of. The event successfully improved the cleanliness of Sunset Beach and heightened public awareness about the impact of pollution on marine ecosystems.

REPORT

Name: "National Science Day"

Date: 05/2/2019

A science exhibition was organized in the school auditorium, where students from various classes displayed their innovative projects and experiments. The exhibits included working models on renewable energy, robotics, environmental conservation, and health sciences. The enthusiasm and creativity displayed by the students were commendable, and many projects were praised for their originality and scientific accuracy. In addition to the exhibition, a quiz competition was held to test students' knowledge of science and technology. The competition saw active participation from different houses, and the winning team was awarded certificates and prizes. A poster-making competition was also organized, where students expressed their ideas on scientific themes through art. The event concluded with a prize distribution ceremony, where the best projects, quiz winners, and poster creators were recognized and awarded by the chief guest, Dr. Khan. The celebration ended on a high note with a vote of thanks from the head of the Science Department, who expressed gratitude to all participants and organizers. National Science Day at Green RAAK arts and science college was a resounding success, with over 200 students actively participating in various events. The day not only provided a platform for students to showcase their scientific talents but also ignited a passion for science among the young minds. The event fostered a deeper understanding of scientific concepts and encouraged students to think critically and creatively.

REPORT

Name: "HIV/AIDS Awareness"

Date: 22/02/2019

HIV (Human Immunodeficiency Virus) is a virus that weakens the immune system by attacking CD4 cells, leaving the body vulnerable to infections. If untreated, HIV can progress to AIDS (Acquired Immunodeficiency Syndrome), where the immune system is severely compromised, leading to life-threatening illnesses.

Transmission and Prevention

HIV is primarily transmitted through contact with infected body fluids such as blood, semen, vaginal fluids, and breast milk. Common modes of transmission include unprotected sexual contact, sharing needles, and from mother to child during childbirth or breastfeeding. Prevention strategies include practicing safe sex (using condoms), regular HIV testing, and the use of antiretroviral therapy (ART) for those infected. Additionally, Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP) are effective preventive measures for individuals at high risk of HIV infection.

Challenges in Awareness

Despite advancements, there are still significant challenges in raising awareness about HIV/AIDS. Stigma and discrimination against those living with HIV prevent many from seeking testing or treatment. Additionally, misinformation and myths surrounding the virus contribute to its continued spread.

PERMISSION LETTER

From:

Mr. Kumara guru
RAAK arts and Science College,
Perambai

To:

The Principal,
RAAK arts and Science College,
Perambai.

Sub: Permission regarding the program on "To Safety Rules While Driving in Two Wheelers"

Respected Sir,

This is to request that program titled "To Safety Rules While Driving In Two Wheelers" organized on 05/3/2019. This Program is mainly designed to help the society on behalf of RAAK arts and Science College. Kindly grant permission to conduct the event successfully. Your gracious presence is much gratified.

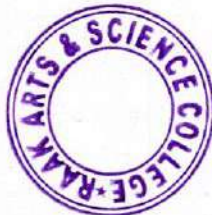

Thanking you,

Date: 26/02/2019

Place: PERAMBAI

yours faithfully,

C. B. S. S.

Jam.

REPORT

Name: "To Safety Rules While Driving In Two Wheelers"

Date: 05/03/2019

Two-wheelers are a popular mode of transport due to their convenience and fuel efficiency. However, they also come with significant risks, making safety precautions essential for riders. This report outlines key safety rules that every two-wheeler rider should follow to ensure their safety and the safety of others on the road.

Wear a Helmet: Wearing a helmet is the most fundamental safety measure for two-wheeler riders. Helmets significantly reduce the risk of head injuries in the event of an accident. It is crucial to ensure that the helmet is of good quality, fits well, and meets safety standards. Both the rider and pillion passenger should wear helmets at all times.

Obey Traffic Signals and Signs: Adhering to traffic signals and road signs is vital. Running red lights or ignoring stop signs can lead to severe accidents. Riders must also pay attention to road markings and follow lane discipline to avoid collisions.

Maintain a Safe Speed: Speeding is one of the leading causes of accidents involving two-wheelers. Riders should always follow speed limits and adjust their speed according to road conditions, weather, and traffic. Riding at a controlled speed gives the rider more time to react to unexpected situations.

Use Indicators and Rear-View Mirrors: Proper signaling is essential when changing lanes or making turns. Riders should always use indicators well in advance and check their rear-view mirrors before making any maneuvers. This helps in communicating their intentions to other road users, reducing the likelihood of accidents.

Avoid Distractions: Riders should avoid any form of distractions, such as using mobile phones or listening to music while riding. Staying focused on the road is crucial for detecting potential hazards and reacting promptly.

Regular Vehicle Maintenance: Regular maintenance of the two-wheeler is essential for safe riding. Riders should check the brakes, tires, lights, and engine before every ride to ensure everything is in proper working condition. A well-maintained vehicle is less likely to fail and cause accidents.

Stay Visible: Wearing bright or reflective clothing can help improve visibility, especially at night or in low-light conditions. Additionally, keeping the headlights on during the day can make the two-wheeler more noticeable to other drivers.
